THE BASIC SCHOOL SUPPORT FUND APPORTIONMENT
For the Fiscal Year Ending June 30, 1988

INTRODUCTION

Oregon's Basic School Support Fund is the product of an initiative petition approved by the voters in November 1946. The first distribution was made in the 1947-48 school year. Legislatures subsequent to that time have made a variety of changes in the way the Fund is appropriated and distributed. The latest change, made by the 1981 Legislature, calls for the amount required for transportation to remain a prior claim against the appropriation; the remainder is then split, with 70 percent distributed as basic grant, growth and decline, and 30 percent as equalization. The same Legislature also extended the payments schedule. Approximately 16 $\frac{2}{3}$ percent is distributed on August 15, followed by 7 payments of 8 $\frac{1}{3}$ percent the 15th of each month, October through April, with the remainder paid on May 15.

The 1987 Legislature appropriated \$497 million to the Fund for the 1987-88 fiscal year. Of this amount, \$7 million was set aside in a "Hold-Harmless Fund" to ensure that no district is apportioned less in 1987-88 than it received in 1986-87; \$2.9 was reserved to fund the Early Intervention program; and \$602,000 was set aside to help fund special education hospital and Christie list programs. As required by law, each school district was notified of its estimated apportionment from the appropriation by the first Monday in March 1987. That estimate was available to local school districts in the preparation of their budgets for the 1987-88 school year.

After the required reductions, the appropriation for 1987-88 covered approximately 28.9% of estimated current expenditures.

Specific information concerning the 1987-88 apportionment follows:

A. Source of Data

Student, financial, and assessed value data used in the computation was for the 1986-87 school year, except that student data used in computing the growth and decline apportionment were derived from the quarter ending December 31 of the 1987-88 school year. Student membership data was drawn from a variety of state-supplied forms on which information is reported by local districts and ESDs; financial data came from local district audits; assessed value information from the county assessor's tax rolls and various schedules filed by the assessors with the Oregon Department of Revenue.

B. The computed amount available for distribution was divided into three apportionment accounts: Transportation, Basic Education Program (which includes Basic Grants and Equalization), and Growth and Decline.

1. Total available for distribution (includes balances and reversions)	\$486,474,607.50
2. Less amount set aside for Transportation	40,418,016.34
3. Available for other apportionment accounts	446,056,591.16
a. Available for Basic Grants, Growth and Decline (70% of line 3)	312,239,613.81
b. Available for Equalization (30% of line 3)	133,816,977.35

C. The Transportation Apportionment

Local school districts providing pupil transportation services in accordance with regulations and standards established by the State Board of Education were reimbursed a portion of the approvable expenses incurred for home to school transportation of pupils, or for room and board in lieu of transportation. Approvable expenses were determined pursuant to

OAR 581-23-040. Sixty percent of the approved cost of pupil transportation, or room and board in lieu of transportation, two years prior to the year of apportionment was set aside in the transportation account. A percentage was computed of the amount available in relation to the total approved cost statewide for pupil transportation in the year prior to the apportionment year. That percentage was then applied to each district's approved transportation cost of the prior year to determine the district's transportation entitlement. The approved cost of transportation in 1985-86 was \$67,363,360, of which 60 percent or \$40,418,016 was made available for transportation aid in the 1987-88 apportionment. This amount divided by the approved cost of transportation in 1986-87 (\$71,306,039) produced a percentage of 56.6824. That percentage, when applied to the approved cost for each district in 1986-87, resulted in a distribution of \$40,417,972.

D. The Basic Education Apportionment

This apportionment consisted of a Basic Grant received by all districts and Equalization apportioned in varying amounts to districts which qualified. Equalization funds were distributed according to the following formula:

$$\begin{array}{rclclcl} \text{Dollar Amount} & & & & & & \\ \text{of Approved} & - & \text{State-Supplied} & - & \text{District Receipts} & - & \text{Dist. Equ.} \\ \text{Program} & & \text{Basic Grant} & & \text{from Federal Forest} & - & \text{Rate X Dist.} \\ & & & & \text{Fees and Common} & & \text{Adj. Assessed} \\ & & & & \text{School Fund} & & \text{Value} \\ & & & & & & = \text{Equalization} \end{array}$$

The components of the formula interacted to determine how much each district actually received. The six components were:

1. Approved Program
2. Resident Average Daily Membership
3. Basic Grant
4. Nonproperty Tax Receipts
5. Adjusted Assessed Value
6. District Equalization Rate

A brief description of each component follows:

1. Approved Program consisted of approved expenditures as provided under OAR 581-23-041 for the regular school year, grades K-12. Included were expenditures for administration, instruction, health, attendance, operation and maintenance, and fixed charges. Excluded were expenditures for transportation, food service, cocurricular activities, community services, capital outlay, debt service, and expenses for nonresident students.

For the 1987-88 apportionment, the approved program of most districts was the lesser of the district's audited approved net operating expenditures for 1986-87 or the district's Resident Average Daily Membership multiplied by \$2,796.74. If a district was approved for Small School Correction (SSC), the district's approved program was the lesser of the Small School Correction or the district's audited approved net operating expenditures.

2. Resident Average Daily Membership (RADM), the student measure used in apportioning the BSSF, was computed by dividing total days' membership of resident students by the number of days taught. Kindergarten RADM, as computed, was cut in half. The RADM of students participating in part-time programs was computed in different ways, depending upon the nature of the program and the amount of time students participated in the program.
3. Basic Grant Each district's basic grant was equal to 25.34779 percent of the district's approved program.
4. Nonproperty Tax Receipts Each district's receipts from Federal Forest Fees and the Common School Fund were components of the equalization formula. These receipts affect directly the amount of equalization money a district receives: for each additional dollar of Federal Forest Fees and Common School Fund, the district will lose one dollar of equalization money; and conversely, any drop in these Nonproperty Tax receipts will translate into an equal gain in the equalization grant.

5. Adjusted Assessed Value (AV) Each district's adjusted Assessed Value was computed as follows:

Computed Value of Western Oregon Severance Tax Offset	+	District Assessed Value from Assessor's Roll	x	Percentage Reflecting District Type
---	---	---	---	---

The computed Assessed Value of the district's Western Oregon Severance Tax Offset was derived through the computation below:

District Severance Tax Offset, 1986-87		Computed Capitalized Value of WOST
5 Year Average Local Extended Levy Rate	=	

The percentages used to adjust the Assessed Value of districts to reflect "type" of district were as follows:

<u>Type of District</u>	<u>Percentage Used</u>
Unified - Grades K-12	100
Elementary - Grades K-6	50
Elementary - Grades K-8	67
Union High - Grades 7-12	50
Union High - Grades 9-12	33

6. District Equalization Rate For each apportionment, the State Superintendent of Public Instruction must compute the highest uniform millage rate per \$100 of approved program expenditures that will distribute the equalization dollars available. For the 1987-88 apportionment, the uniform millage rate was .000347821. Each district's approved program per RADM was divided by 100 and the result multiplied by the uniform rate to compute the district's equalization rate used in the formula. For example:

District Approved Program/RADM x Uniform Rate = District Equalization Rate
100

District 1 $\frac{2,796.74}{100} \times .000347821 = .009727649$

District 2 $\frac{1,788.22}{100} \times .000347821 = .006219804$

If the approved program per RADM for a district approved for Small School Correction was above the \$2,796.74 program limit, the program limit was used in the equalization rate computation.

To illustrate the computation of Basic Grants and Equalization in the 1987-88 Apportionment, four districts are presented below as examples. The figures shown for each are dollar amounts per RADM.

	Approved Program/RADM	less	Basic Grant	less	Fed. For. Fees + Com. Sch. Fund	less	Dist. Eq. Rate x Adjusted AV	= Equalization
Dist. 1	\$2,796.74	-	\$708.91	-	\$ 40.00	-	(.009727649 x 50,000) =	\$1,561.45
Dist. 2	\$2,796.74	-	\$708.91	-	\$220.00	-	(.009727649 x 200,000) =	no. Equal. (\$ 77.70)
Dist. 3	\$1,788.22	-	\$453.27	-	\$ 50.00	-	(.006219804 x 60,000) =	\$ 911.76
Dist. 4 (SSC)	\$2,900.00	-	\$735.09	-	\$160.00	-	(.009727649 x 100,000) =	\$1,032.15

E. Growth and Decline Apportionment

1. Apportionment for Growth Growth in RADM was the positive remainder after subtracting the RADM for the year ended June 30, 1987, from the RADM for the quarter ended December 31, 1987. The growth RADM multiplied by the 1987-88 Basic Grant per RADM (for the year ended June 30, 1987) constituted the apportionment for growth. For a district spending at the limit of \$2,796.74 per ADM, the Growth allocation for 1987-88 is \$708.91 per ADM ($2,796.74 \times 25.34779$ percent).
2. Apportionment for Decline Decline in RADM was 75 percent of the negative remainder after subtracting the RADM for the year ended June 30, 1987, from the RADM for the quarter ended December 31, 1987. The decline RADM multiplied by the 1987-88 Basic Grant per RADM (for the year ended June 30, 1987) constituted the apportionment for decline.

F. Total apportionment was the sum of the apportionments for Transportation, Basic Grant, Equalization, and Growth or Decline.

Table 1 provides data by school district, regarding the 1987-88 apportionment of the Basic School Support Fund.

Column 1	A local district is shown by district number in the ESD or county in which that district is located.
Column 2	The RADM of the district for the year ending June 30, 1987.
Column 3	The district's approved program for purposes of computing Basic Grant and Equalization.
Column 4	District Federal Forest Fees and Common School Fund receipts for 1986-87.
Column 5	The district's adjusted assessed value for 1986-87.
Column 6	The amount computed as Basic Grant. The figure represents 25.34779 percent of the dollar amount shown in Column 3.

Column 7	The amount computed as Equalization according to formula.
Column 8	The amount computed as Transportation reimbursement. The dollar amount shown equals 56.6824 percent of the district's approved transportation expenditures for the 1986-87 school year.
Column 9	The computed allocation for purposes of Growth or Decline. Decline allocations are followed by an asterisk (*).
Column 10	The total computed apportionment for 1987-88.
Column 11	Forfeitures ordered by the Teacher Standards and Practices Commission under the provisions of ORS 342.173 and adjustments from prior years. Adjustments are followed by an asterisk (*).
Column 12	The 1987 Legislature allocated \$7 million to a "Hold-Harmless" fund to ensure that no district is apportioned less in 1987-88 than it received in 1987-88. The "Hold-Harmless" state total cannot exceed \$7 million. For that reason, each district's hold-harmless allocation has been prorated at the 0.926 rate. [This program is funded for 1987-88 only.]
Column 13	The sum of Columns 10, 11 and 12.
Columns 14, 15 & 16	ORS 327.094 provides that a district may not be paid more in the apportionment year than the estimate given the district for budgetary purposes. If the district is entitled to more than the estimate, the excess is carried over and paid in nine payments together with the regular payments for the following fiscal year 1988-89 (Column 16). The figure in Column 15 represents the amount of funds actually received by the district at the end of 1987-88; i.e., Column 13 minus Column 16. The amount paid the district from the 1987-88 carryover is represented by Column 14. [For Wasco 50 and Madras 509J, the amount shown in Column 15 in Wasco 50 was computed on the basis of data belonging to Wasco 50, but the final payment of \$29,086.43 was paid to Jefferson 509J in addition of the \$3,087,296 shown.]
